### Themed Lesson Kit Outline

This month, the lesson kit theme is "Firefighters". There's a Fire Engine puzzle to help build listening skills, a firehouse matching game for building vocabulary, a fun sing-along, and more!

This comprehensive speech therapy lesson kit is a pdf that's designed to be printed and reused. Every lesson kit has three levels and includes lesson plans with four complete activities and therapist notes for each activity. There's also step-by-step guidance and printable illustrations for each activity. Each lesson plan highlights useful therapy strategies to help achieve the listening and language goals.

- Step-by-step guides
- 4 “Firefighter” themed activities
- High-quality illustrations
- Language-neutral illustrations
- Detailed therapy notes
- Lesson plans for each level
- Listening goals
- Spoken language goals
- Cognition and theory-of-the-mind goals
- Key therapy strategies

Each lesson kit has three levels of each activity to cover a wide range of listening, spoken language, and cognition abilities for children.

## Download Lesson Kit

These aural rehabilitation lesson kits are available free of charge—we’re here to support your work and the success of every recipient. They can be printed, emailed, shared with colleagues, and even given to parents as supplemental at-home aural rehabilitation resources between sessions.

### FIREFIGHTERS: LEVEL 3 THERAPIST NOTES

#### ACTIVITY

## 2. Fire Station Open Day

#### PREPARATION

Print 2 copies of the resource onto lightweight card.  
Cut the panel of children out from the bottom.

On fire station open day the children are allowed to visit the fire station. You are going to make the 2 fire stations match by putting the children in the same place in a barrier game.

1. Give the child one fire station and one panel of children and give the others to their parent/caregiver.
2. Encourage them to cut up the paper children describing the children as they do.
3. Place the barrier between the two fire stations and put the paper children beside the fire stations.
4. The parent/caregiver can start the game by saying which child goes where in the fire station, both players roll up blu tack, put it on the back of the described paper child and push it into position in the fire station.
5. Swap roles so the child chooses a paper child and the parent/caregiver where to put him/her.
6. After 2 turns compare the fire stations to check they are the same.

#### RESOURCES

- Firefighters L1 L2 L3 A2
- Blu tack
- A barrier to place between players (a folder/book or board)

## Download Rehabilitation Lesson Kit #23: Firefighters now!

We post a new lesson kit for download every month here on our Professionals Blog. There’s no deadline for downloading these aural rehabilitation resources, so you can easily find and share previous lesson kits.
